

I claim:

1. An equine safety turn out garment for a horse to wear during hunting season and at night, which comprises:
an equine garment made from highly visible fabric which has highly reflective strips affixed thereto.
- 5 2. The equine safety turn out garment of claim 1, which is lighted for additional visibility.
3. The equine safety turn out garment of claim 1, wherein said fabric is one or
10 more of international or blaze orange.
4. The equine safety turn out garment of claim 1, which is one or more of an equine turn out fly mask or an equine turn out sheet.
- 15 5. An illuminative and reflective safety turn out horse fly mask, which comprises:
a high visibility colored fabric adapted to extend from a rear edge behind a horse's ears to a lower edge at the horse's cheekbone, said fabric having a mesh pleated area to create a stand-up area away from the horse's eyes and
20 to permit the horse to see therethrough, and an ear accommodating area
formed from an upper edge to accommodate the horse's ears, said rear and lower edges terminating about the lower jaw of the horse and thereat being releasably fastenable, each of said fabric edges being covered with webbing,
a first reflective strip being adhered to said fabric about said lower edge and
25 a second reflective strip is adhered to the fabric extending upwardly from
said first reflective strip in the middle of the horse's face to said ear accommodating area.
6. The turn out horse fly mask of claim 5, which is international orange in color.
- 30 7. The turn out horse fly mask of claim 5, wherein said webbing is one or more of vinyl, cotton, or polypropylene.

8. The turn out horse fly mask of claim 5, which is entirely made from mesh fabric.
9. The turn out horse fly mask of claim 5, wherein said fabric is a vinyl fabric.
10. The turn out horse fly mask of claim 8, wherein said mesh fabric is a vinyl mesh fabric.
11. The turn out horse fly mask of claim 5, wherein said ear accommodating area is an aperture formed with said upper edge.
12. The turn out horse fly mask of claim 5, wherein said ear accommodating area is additional fabric adapted to fit over the ears of the horse.
13. The turn out horse fly mask of claim 5, which is releasably fastenable with a hook and eye fastener.
14. The turn out horse fly mask of claim 5, which additionally retains electrically energized lighted strips.
15. A method for providing safety to a turned out horse, which comprises the steps of:
providing an illuminative and reflective safety turn out horse fly mask comprising a high visibility colored fabric adapted to extend from a rear edge behind a horse's ears to a lower edge at the horse's cheekbone, said fabric having a mesh pleated area to create a stand-up area away from the horse's eyes and to permit the horse to see therethrough, and an ear accommodating area formed from an upper edge to accommodate the horse's ears, said rear and lower edges terminating about the lower jaw of the horse and thereat being releasably fastenable, each of said fabric edges being covered with webbing, a first reflective strip being adhered to said fabric about said lower edge and a second reflective strip is adhered to the fabric extending upwardly from said first reflective strip in the middle of the horse's face to said ear accommodating area.

16. The method of claim 15, wherein said fabric provided is international orange in color.
- 5 17. The method of claim 15, wherein said webbing is one or more of vinyl, cotton, or polypropylene.
18. The method of claim 15, wherein said safety turn out mask is entirely made from mesh fabric.
- 10 19. The method of claim 15, wherein said fabric is a vinyl fabric.
20. The method of claim 18, wherein said mesh fabric is a vinyl mesh fabric.
- 15 21. The method of claim 15, wherein said ear accommodating area is an aperture formed with said upper edge.
22. The method of claim 15, wherein said ear accommodating area is additional fabric adapted to fit over the ears of the horse.
- 20 23. The method of claim 15, wherein said safety turn out mask is releasably fastenable with a hook and eye fastener.
24. The method of claim 15, wherein said safety turn out mask additionally retains electrically energized lighted strips.
25. A safety equine turn out blanket, which comprises:
an equine turn out blanket made from bright and highly visible fabric that has reflective strips adhered to thereto.
26. The safety equine turn out blanket of claim 25, which is lighted for additional visibility.

27. The safety equine turn out blanket of claim 25, wherein said fabric is one or more of international or blaze orange.
- 5 28. The safety equine turn out blanket of claim 25, wherein said fabric is mesh fabric.
- 29 The safety equine turn out blanket of claim 25, wherein said fabric is one or more of vinyl, cotton, polypropylene, dernier, corduroy, nylon, or fleece.
- 10 30. The safety equine turn out blanket of claim 25, wherein said fabric is a vinyl fabric.
31. The safety equine turn out blanket of claim 28, wherein said mesh fabric is a vinyl mesh fabric.
